Turfco T-3000	3.25	3.75	4.25	4.5	13 ft

Spreader settings are influenced by factors such as specific model, speed, equipment wear, and condition of spreader. Because of this, published spreader settings are a starting point for calibration of your spreader to properly apply Headway G at labeled rates. Methods to calibrate spreaders can be found in *The Mathematics of Turfgrass Maintenance 4th Edition* by Christians and Agnew, Ann Arbor Press/John Wiley & Sons, Inc.
