

Barricade Herbicide Application Guarantee Program for Fall and Spring Crabgrass Control

There are no guarantees in nature, but there are with Syngenta. Only Barricade® herbicide offers you a guaranteed crabgrass control program. How can we do this? Because we know Barricade is the only herbicide that offers you performance that can last throughout the season following application. Its low solubility and volatility means it stays in the weed germination zone and will not break down even after heavy rain or snow.

Barricade gives you more

Count on Barricade to put you in control of crabgrass and other problem weeds. Barricade also features a stain-free formulation. And its low water solubility means you can count on Barricade to stay right where you put it, even on slopes and hillsides. Barricade 65WG, Barricade 4FL and Barricade On-Fertilizer formulations are available to meet your unique needs.

Enroll in the Barricade Herbicide Application Guarantee Program. It's easy.

1. Purchase \$2,000 or more of Barricade 4FL, Barricade 65WG, or Barricade On-Fertilizer ("Barricade Products") from your Syngenta Authorized Channel Partner (distributor, agent or formulator) between Sept. 1, 2020 and May 31, 2021.
2. Choose the timing of your application of Barricade products — fall or spring — according to your location. Acreage may only qualify for either the Fall Application Guarantee or the Spring Application Guarantee, but not both.
3. Apply Barricade products at the proper rate, conditions, application date and timing for your area as described in this Guarantee Program. In addition, you should consult the maps in this Guarantee Program for more details.
4. To notify Syngenta of a claim, contact your Syngenta territory manager by Aug. 1, 2021.

Guarantee Program Terms and Conditions

You must follow label guidelines regarding application rates and timing for your region in order to participate in the Guarantee Program. To qualify for the minimum purchase requirement of \$2,000, all purchases of Barricade products must be made between Sept. 1, 2020 and May 31, 2021 ("Purchase Period"). To notify Syngenta of a claim, contact your Syngenta territory manager on or before Aug. 1, 2021. Syngenta reserves the right to verify all purchases. If you experience a crabgrass breakthrough prior to Aug. 1, 2021 after applying Barricade product according to label instructions, purchased during the Purchase Period, you must notify a Syngenta territory manager immediately after the first instance of crabgrass breakthrough. Breakthrough validity and eligibility for reimbursement is determined by Syngenta and will be settled by Syngenta with replacement Barricade product or cash reimbursement at the discretion of Syngenta. Claims may be combined or separated at the discretion of Syngenta. "Crabgrass breakthrough" is defined as less than 85% crabgrass control as compared to untreated areas with similar turf density, turf type, environment, and weather conditions. Total Guarantee Program benefit will not exceed 50% of the value of Barricade products purchased during the Purchase Period or \$50 per acre of retreatments, whichever is less. Syngenta will not pay for the application or other costs associated with rescue treatment. Syngenta reserves the right to modify or discontinue this Guarantee Program at any time without prior notice. Visit GreenTrust365.com or ask a Syngenta territory manager for more information.

Fall Application Guarantee

A single fall application will control next season's crabgrass, providing you maximum application flexibility. As a result, you can spread out your workload to make next spring less hectic. You also won't have to worry about missed applications due to inclement spring weather.

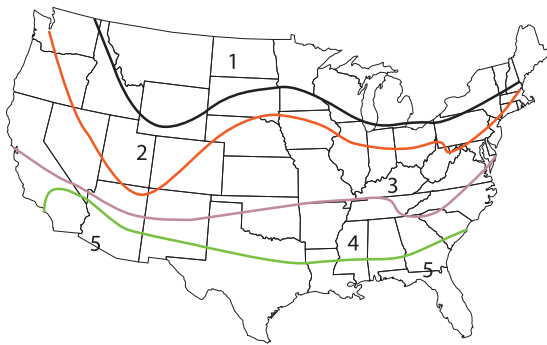

Desired Rate	Barricade 65WG		Barricade 4FL	
	a.i./A	lbs./A	fl. oz./A	pt./A
0.65		1.00	21	1 ¹ / ₃
0.75		1.15	24	1 ¹ / ₂
0.81		1.25	26	1 ² / ₃
1.00		1.50	32	2
1.50		2.30	48	3

Apply a minimum of 0.65 lbs./a.i. per acre in the areas above the dotted line or 0.75 lbs./a.i. per acre in the areas below the dotted line. Applications of Barricade 4FL and Barricade 65WG and/or usage of Barricade On-Fertilizer **must** be made after soil temperature falls below 50° F, but prior to ground freeze (32° F), snow cover or December 31, 2020 to qualify. The minimum spread rate is 175 lbs. of Barricade On-Fertilizer per acre as long as you achieve the minimum active ingredient per acre rate. When using Barricade 4FL or Barricade 65WG in a spray application, use a minimum of 20 gallons of water per acre with the appropriate rate as directed on the label. **The Fall Application Guarantee is offered in the following states only: Colorado, Connecticut, Delaware, Iowa, Idaho, Illinois, Indiana, Kansas, Kentucky, Massachusetts, Maine, Maryland, Michigan, Minnesota, Missouri, Montana, North Carolina, North Dakota, Nebraska, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, South Dakota, Tennessee, Virginia, Vermont, Wisconsin, West Virginia and Wyoming.**

Spring Application Guarantee

Barricade Product Zones*

1. Apply by May 15 to qualify. Use 0.38 to 0.5 lbs./a.i per acre.
2. Apply by April 15 to qualify. Use 0.5 to 0.75 lbs./a.i per acre.
3. Apply by March 15 to qualify. Use 0.75 to 1.15 lbs./a.i per acre.
4. Apply by Feb. 15 to qualify. Use 1 to 1.5 lbs./a.i per acre.
5. Apply by Jan. 15 to qualify. Use 1 to 1.5 lbs./a.i per acre.

Desired Rate	Barricade 65WG		Barricade 4FL	
	a.i./A	lbs./A	fl. oz./A	pt./A
0.38		0.58	12	³ / ₄
0.50		0.77	16	1
0.65		1.00	21	1 ¹ / ₃
0.75		1.15	24	1 ¹ / ₂
0.81		1.25	26	1 ² / ₃
1.00		1.54	32	2
1.50		2.31	48	3

For split applications, apply at least 50% of the above-specified rate by the dates above and a second application eight weeks later. The minimum spread rate is 175 lbs. of Barricade On-Fertilizer per acre as long as you achieve the minimum active ingredient per acre rate. When using Barricade 4FL or Barricade 65WG in a spray application, use a minimum of 20 gallons of water per acre with the appropriate rate as directed on the label.

*Not for use on St. Augustine or bentgrass turf.
